

Core Maths Pre-Release Webinars

2nd October 2019

Overview

Our Core Maths pre-release webinars give teachers an opportunity to share ideas, concerns, challenges and successes. Please come along with thoughts and queries that you're happy to share. We are running pre-release webinars for each of the three main Core Maths awarding organisations but if you are currently teaching the City & Guilds or NCFE awards and would welcome a webinar, please get in touch and we will try to accommodate your request.

The dates of the three pre-release webinars are:

AQA - Thursday March 5

OCR - Wednesday March 18

Edexcel - Tuesday April 21

Who will benefit from attending?

All current or prospective teachers of a Core Maths qualification will find these webinars useful. If you're not using a pre-release document this year but think you might in the future (or are just curious) please do feel free to attend.

Materials and Equipment

If possible it would be easier for you if you could secure a microphone for the webinar. If this is not possible to do, you will be able to communicate by using the chat box.

Other Information

Teachers who sign up will be emailed in the days prior to the webinar and again on the day of the webinar with a link to the online meeting room.

Study Schedule

In the forthcoming Core Maths teaching webinar we will be focussing on how the first half-term with your new classes has been - what have you done, what has gone well and what would you change next time around? This webinar is **NOT** specific to any of the particular specifications - all are welcome!

There will be plenty of opportunities for you to raise points on other aspects of Core Maths within this webinar.
